A POSITIVE ACTION, ACHIEVABLE AND ESSENTIAL

Sustainability is an essential element of JRC strategic vision aimed at creating value for all stakeholders.

In a context in which companies are increasingly aware of the environmental and social impact of their activities, sustainability plays a central role in the evolution and innovation of production processes.

James Ross Collection has made its commitment concrete through the drafting of the sustainability report. This document, made available to its stakeholders, represents an important transparency tool, aimed at illustrating the company's commitment to the issues of sustainability and social responsibility.
